

PERIODS & SAFE SEX

A COMIC ON
MENSTRUATION

Unnati was in the college canteen. From a distance she saw her friend Riya standing in the que. Unnati waved to Riya. Since last two days, Riya was absent and had not given any information about her whereabouts. Unnati was worried.

Riya came with her food tray and sat beside Unnati. She was in good mood. "Hey, what happened to you? Where have you been?" asked Unnati

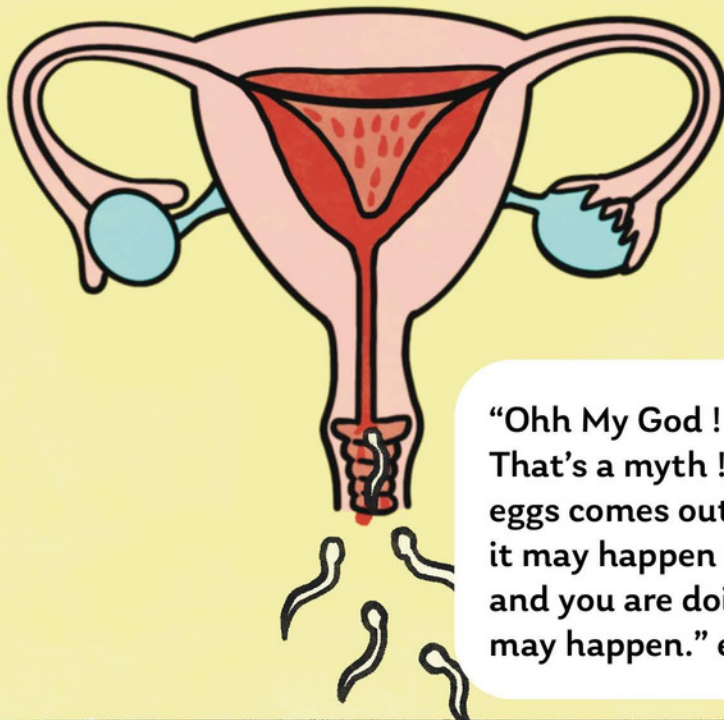

"Sshh !! Don't shout ! I am fine. Just holidaying with Anmol ! snapped Riya

Ok, that, cool ! Hope you are using protection, right?
Asked Unnati

“What ! I had my periods! And you know we don’t need protections during those days.”
said Riya.

“Ohh My God ! No days are safe days for sex ! That’s a myth ! During periods our immaturated eggs comes out with blood through vagina. So, it may happen that some eggs are still remaining and you are doing an intercourse. So pregnancy may happen.” explained Unnati

“Relax ! let’s visit a doctor tomorrow. We will get to know.” advised Unnati.

“Whaaaaat ! I didn’t know this. Now what will I do.” asked Riya
